DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/09/09 has been entered.
2. Claims 1, 3-6 and 10 are pending currently no claims are in condition for allowance.

Double Patenting

3. Claims 1, 3-6 and 10 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-6 of U.S. Patent No. 7,149,192. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-6 of the instant application merely broadens the scope of the claims 1-6 of the patent No. 7, 149,192 by eliminating the elements and their functions of the claims. It has been held that the omission and element and its function is an obvious expedient if the remaining elements perform the same function as before. *In re Karlson*, 136 USPQ 184 (CCPA. Also note *Ex parte Rainu*, 168 USPQ 375 (Bd. App. 1969); omission of a reference element whose function is not needed would be obvious to one skilled in the art.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 3-6 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it appears to be that there is a gap between the method steps as originally presented and the last step newly added. Specifically, it is unclear as to how the last step correlates to any of the previous steps.

Response to Arguments

6. Applicant's arguments with respect to claims 1, 3-6 and 10 have been considered but are moot in view of the new ground(s) of rejection.
